

Body punching
rather than
buddy punching

Z-69   **F**
Guard Tour System

REAL TIME FINGERPRINT GUARD TOUR SOLUTION
PROFESSIONAL MANUFACTURER SINCE 2006

- ① LED indicator ② Display ③ Power and OK button
- ④ “Up” button, can send SOS alarm by long pressing
- ⑤ “Down” button, can use as torch switch at main interface
- ⑥ Fingerprint sensor/RFID sensor area ⑦ Label area
- ⑧ Magnetic type pogo pin USB port ⑨ SIM card socket

Benefits

RFID Reading

RFID reader does not need to touch the checkpoint, proximity sensor. Checkpoint can be installed in the wall. Waterproof and long-lasting.

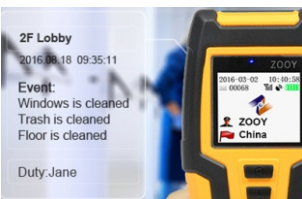

Real Time Monitoring

Z-6900F quickly integrates the guard’s hours to center by GSM network and easily generate report to your payroll provider.

Fingerprint Recognition

Buddy punching is illegal and has cost many employers millions in financial losses each year. Fingerprint as unique trait that lets guard is unable to clock in for other guard.

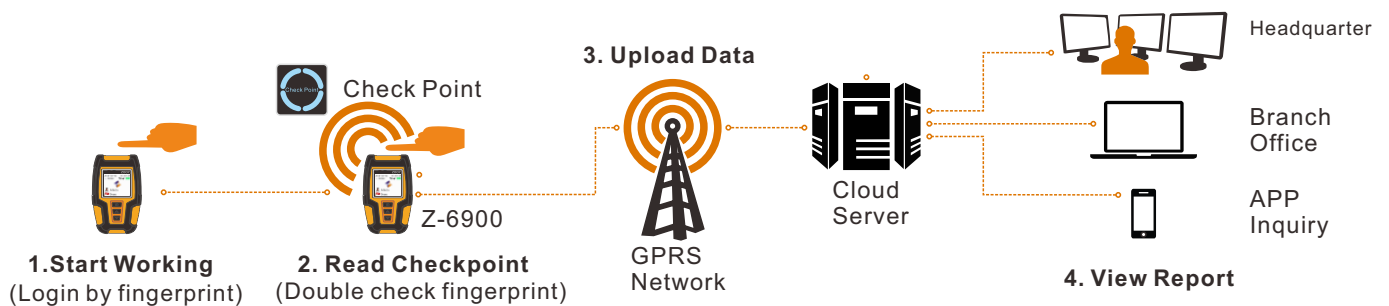

Event Records

Events increases the work efficiency of employees, so that their work is more specific, for example, you can let employees to check and record the door if is closed, the room if is clean, and etc.,

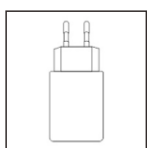

Technical Parameters

Read data	Auto-induction, no need to press any button
LCD screen	TFT1.8 inch high image screen
Tag frequency	125kHz EM ID card
Working indication	Vibration + LED+ LCD
Fingerprint	Capacitive sensor, 225 pcs fingerprint capacity
Memory capacity	80,000logs
Impact record capacity	32,000logs
Event capacity	500pcs
SOS alarm	Press "up" key to send alarm signal
Communication	GPRS/magnetic type pogo pin USB cable. No need USB driver
Battery	3000mAh built-in rechargeable lithium battery
Power consumption	60~80mA
IP grade	IP65
Working temperature	30%~95%
Working humidity	-20°C~+70°C
Size	117*70*30mm
Weight	150g
