PROFESSIONAL MANUFACTURER OF

GUARD TOUR SYSTEM

ZOOY
PROFILE

Shenzhen ZOOY Technology Development Co., Ltd. is a leading factory established in 2006, specializing in guard tour systems. We are dedicated to R&D, production, and sales, offering two product series: "Smart Cloud Based Type" and "Basic RFID type," encompassing over 30 different types. Our systems are extensively utilized in security patrol and inspection management, catering to residential communities, office buildings, and the petroleum industry.

At ZOOY, we place utmost importance on intellectual property rights and safety. With numerous patents and recognition as a top security supplier in China, we are committed to maintaining the highest standards. As active members of esteemed associations like the "Shenzhen Smart Security Association" and the "China Security and Prevention Industry Association," we actively contribute to the advancement of the industry.

Our guard tour systems have gained widespread acclaim for their exceptional quality, innovative technology, and impeccable customer service. They are highly sought after both within China and internationally, spanning Southeast Asia, the Middle East, Europe, Africa, and the United States. By choosing ZOOY, you select a reliable partner that offers cutting-edge solutions and sets new benchmarks in security management.

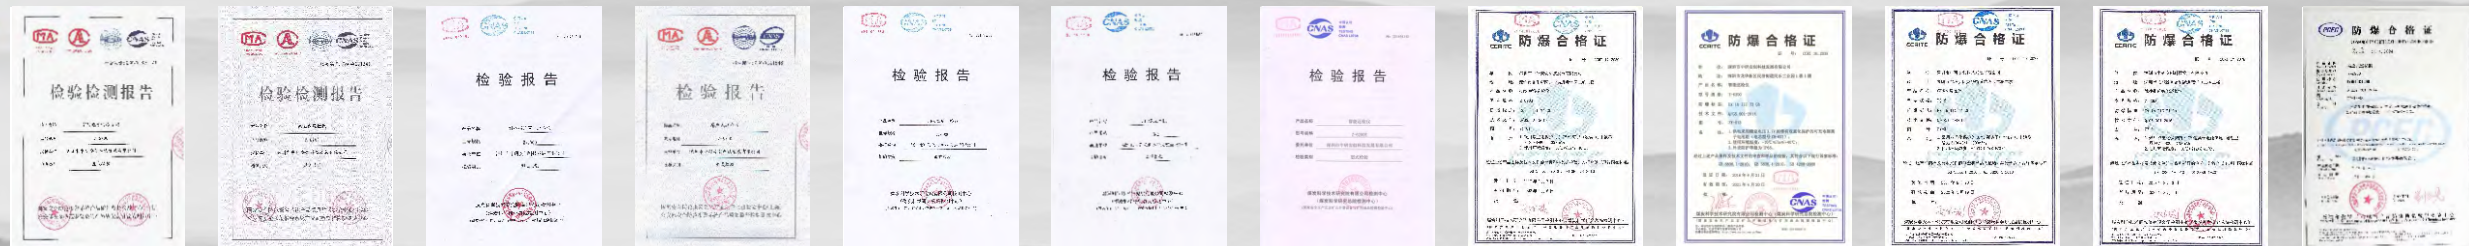

We build safety!

PDA Guard Tour Terminal (Explosion-proof)
Z-9000

- Android 7.0 operating system
- Supports secondary development, compatible with external temperature and vibration measurement devices (expandable functionality)
- High-definition photo capture, video recording
- Capacitive fingerprint recognition technology, fingerprint template transferring supported
- Real-time GPS positioning, 4G wireless transmission

Specification ▶

Reading mode	125kHz / NFC / QR-code	CPU	4 core, MediaTek
Fingerprint	capacitive sensor, 225 pcs	Display	4.0 inch touch screen, 800*480 pixels
IP rating	IP67	Camera	2.0 MP front camera, 8.0 MP back camera
Battery	4,000mAh rechargeable li-ion battery	Communication	4G/WIFI (4G customizable)
RAM/ROM	1G/8G or 3G/32G	Phone calling	Free dialing with any phone number during patrols.

Feature ▶

Phone calling	Fingerprint recogntion	Hazard management	Video recording

PDA Smart Handheld Terminal (scanner)
Z-9000S

Rapid |Precise |Reliable

High-precision Honeywell scan head for enhanced speed.

Advanced decoding system effortlessly recognizes incomplete, folded, and reflective codes.

Widely used in various industries, including retail, warehousing, logistics, and information identification.

We build safety!

Smart Touchscreen Guard Tour System (Explosion-proof)
Z-8000 /Z-8000M

- GPS positioning for real-time tracking of patrol officer's location on maps
- 4G real-time transmission (customizable to 5G)
- Patrol officer can make calls to pre-set 10 phone numbers.
- High-definition camera captures inspection scenes accurately.
- Facial/fingerprint recognition technology prevents buddy punching.

Specification ▶

Reading frequency	125kHz, EM-ID tag	Photo	8Gb(12,800 pcs)
Display	TFT3.5inch HD touch screen	Impact record	32,000 pcs
Face/fingerprint	50 faces/225 pcs fingerprint	Battery	2,700mAh Li-ion battery
Item record	30 items per checkpoint	Power consumption	100mA~120mA
Memory	32,000pcs	Size/weight	138*66*20mm/224g

4G GPS Cloud Guard Tour System (Explosion-proof)
Z-6900

- 4G real-time transmission
- Live GPS positioning with history playback
- 300 fingerprint recognition capacity to prevent buddy-punching (expandable capacity)
- 500 customizable events for meticulous inspections (optional for item recording)
- High, medium, low, strobe, SOS 5 lighting modes (selectable with fingerprint functionality)

Specification ▶

Display	TFT 1.8inch HD screen	Reading frequency	125kHz, EM-ID tag
Communication	GPRS/4G/WIFI+ magnetic USB cable	Memory	80,000 pcs
Positioning	GPS	Battery	3,000mAh Li-ion battery
Event	15pcs per checkpoint	Power consumption	60mA~80mA
Impact record	32,000pcs	Size/weight	117*70*30mm/226g

Fingerprint recognition(Z-6900F) LED lighting(Z-6900) GPS positioning Magnetic USB port

Live positioning, empowering safety!

We build safety!

Fingerprint Lighting Guard Tour System
Z-6500F

- Fingerprint recognition prevents fraud.
- Customizable settings for 500 events (with one or three event modes).
- High-speed pogo pin usb communication, tenfold speed increase.
- Impact record reduces disputes.
- Voice prompts for work status.

Camera Lighting Guard Tour System
Z-6800

- High-definition camera captures inspection scenes accurately.
- Industry-first high-speed driver-free communication
- Led lighting eliminates the need for additional devices during night patrols.
- Customizable settings for 500 events (with one or three event modes).

Specification ▶

Display	TFT 1.8 inch HD display	Reading frequency	125kHz, EM-ID tag
Communication	Pogo Pin USB cable	Memory	80,000 pcs
Fingerprint	225 pcs	Battery	1,000mAh Li-ion battery
Event	Total 500 pcs, 15 pcs per checkpoint	Battery life	25 hours
Impact record	32,000 pcs	Size/weight	132*57*30mm/150g

RFID reading   Capacitive sensor   LED flashlight   USB communication

Specification ▶

Reading frequency	125kHz, EM-ID tag	Display	TFT2.4 inch HD display
Memory	10,000 pcs	Event	Total 500 pcs, 15 pcs per checkpoint
Impact record	32,000 pcs	Flashlight	LED flashlight
Camera	5.0 Mega Pixels	Battery	900mAh Li-ion battery
Photo	12,800 pcs (8Gb)	Size/weight	131*55*20mm/130g

Photo recording   LED flashlight   Pogo pin usb communication   Anti-slip design

We build safety!

4G Public Network Radio Guard Tour System
Z-7000

- Public intercom with unlimited distance
- Display + voice reading prompt
- Customizable alarm clock for inspection
- Enhanced safety with emergency alarm for patrol officers
- Real-time 4g data transmission

Specification ▶

Memory	10,000 pcs	Display	LCD HD screen
Reading frequency	125kHz, EM-ID tag	Voltage	3.4-4.2V DC
SIM card	Micro sim card	Battery	4,600mAh Li-ion battery
Antenna impedance	50 Ω	Temperature	-30~75℃
Alarm clock	Real-time alarm reminder	Size/weight	108*60*30mm/250g

RFID reading | Public network radio | Charge socket | Belt clip

LCD Lighting Guard Tour System
Z-6500D

- Customizable settings for 500 events (with one or three event modes).
- LED lighting eliminates the need for additional devices during night patrols.
- Industry-first high-speed driver-free communication
- Build-in battery combined charging and communication

Specification ▶

Dsiplay	TFT1.8 inch HD screen	Memory	80,000 pcs
Reading frequency	125kHz, EM-ID tag	Impact record	32,000 pcs
Prompt	LED+vibration+display	Battery life	Scan10,000 tags after full charge.
Flashlight	LED flashlight	Battery	750mAh Li-ion battery
Communication	Pogo pin USB cable	Size/weight	125*56*26mm/170g

LED flashlight | Event record | Impact record | LCD display | Pogo pin usb communication

Bluetooth DataSync Display
Z-5000X

- Real-time inspection information display for clear visibility.
- Bluetooth connection between app and display.
- Scrolling screen with ample capacity to record inspection data.
- Instant app-based upload of inspection data
- Continuous 24/7 display of inspection data.
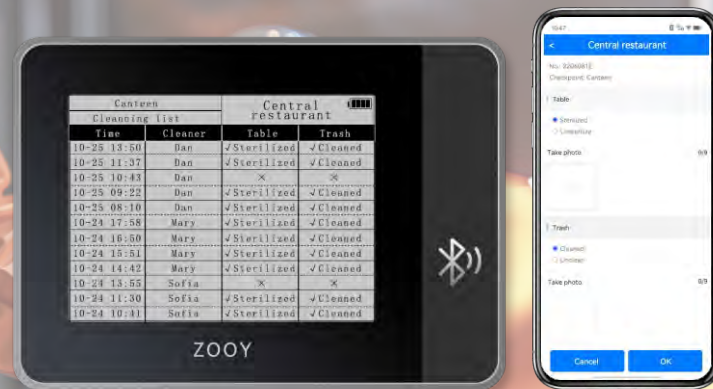

Online Biometric Guard Tour System
Z-5000F

- 10,000 intelligent facial recognition for efficient face recognition.
- Customizable settings for 500 events, facilitating data collection.
- Voice prompt for successful verification.
- Real-time TCP/IP network transmission
- Face & fingerprint recognition technology to prevent buddy punching.

Web software

Live data
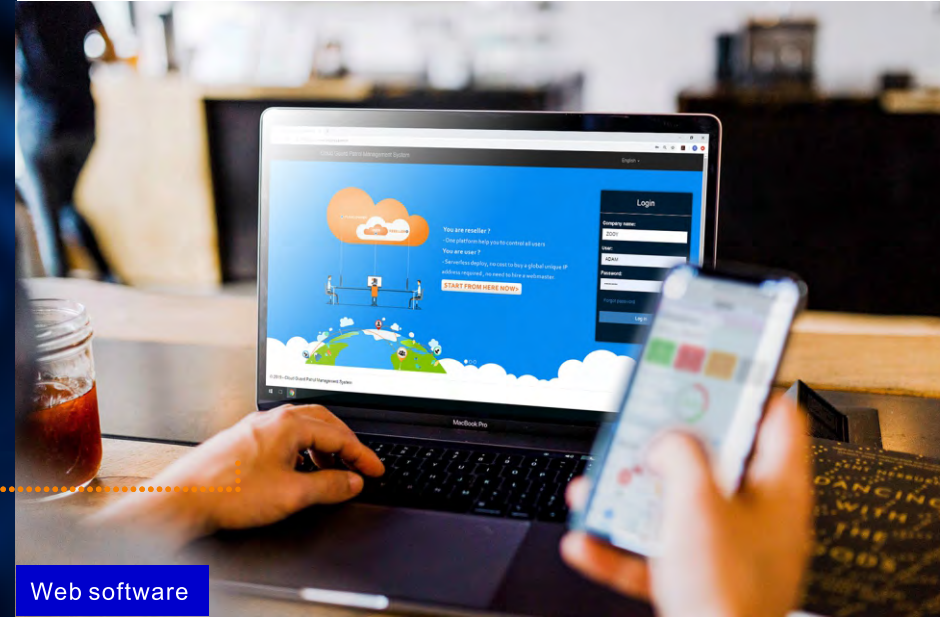

►► Web Based Management Software

Software Types: V6.0 Stand-alone Software, V1.0 Web-based Software, ZOOY CLOUD, Could Patrol APP, PatrolMessenger, PatrolScanner.

Real-time Data Query: Admin / Chief can query returned report in real time from internet anywhere .

Feature ►

- Real-time transmission via GPRS/WIFI/4G
- Alarm reminder for patrolling, no steps forgotten
- Fingerprint/face recognition to prevent buddy punching
- 32,000 impact records storage, traceable damage
- SOS alert for emergency assistance

Specification ►

Material	ABS material shell
Battery	1,200mAh rechargeable Li-ion battery
Reading frequency	125kHz, EM-ID tag
Consumption	60mA
Size/weight	82mm*52mm*22mm/73g

Face recognition(Z-6700M)   Fingerprint recognition(Z-6700F)   RFID reading   SOS alarm

Dynamic Data Reporting: Our system automatically analyzes and processes data, generating visually appealing reports that highlight essential information such as patrols, compliance, and potential oversights. Get instant insight into partrol results.

User-Friendly Patrol Schedule: Customize patrol schedules effortlessly, set start and end time, create multiple schedules per route, and modify past schedules as needed. Enjoy flexibility and convenience.

Flexible Database Options: Choose between SQLite and MySQL for data storage. Support for customization and report development.

Seamless System Compatibility: Compatible with Windows 7 and above. Integrates smoothly into your existing setup for efficient operations.

Data Security: Dual backups with automatic and manual options reduce the risk of data loss, ensuring data safety.

Access Control: Create multiple accounts with customizable access levels and permissions for precise control over system usage.

Dynamic QR-code Checkpoint

ZM-900C/"PatrolScanner"APP

- Prevent cheating through dynamic data encryption
- "Patrolscanner" app for text annotations and photo documentation
- Battery life lasts up to 2 years per replacement.
- Secure card slot wall mount

Patrolscanner—app for efficient patrols

- Patrolscanner offers two convenient patrol methods: dynamic qr code and bluetooth. Open app from your android cellphone can start patrolling easily .
- Support Patrol mode (random order / follow schedule), SOS alarm , multiple route workable . Can take photo and upload accompanying text to record patrol details

Specification ▶

|			
Material	Engineering plastic casing &PVC panel	Scanning mode	Dynamic QR-code
Encryption	Dynamic data encryption	Refresh frequency	Customizable (default 5 mins)
Power supply	4.5V（3 pcs AAA batteries）	Battery life	2 years
Dimension/display size	82*82*20mm/1.5 inch	Operation system	Android
Installation	Wall-mounted & free wiring.		

Dynamic encryption　　　Innovative card slot design.　　　Powered by AAA battery　　　Text and image event recording
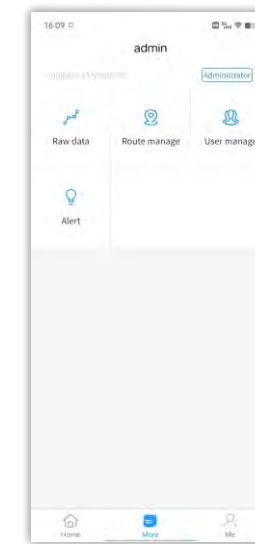

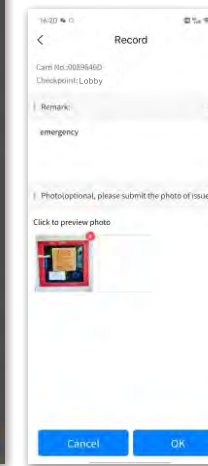

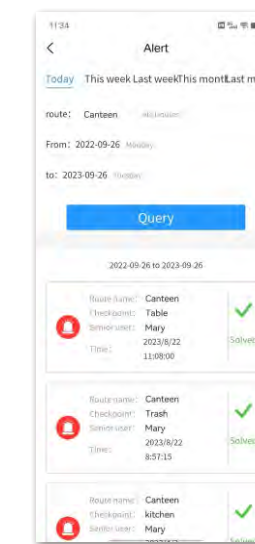

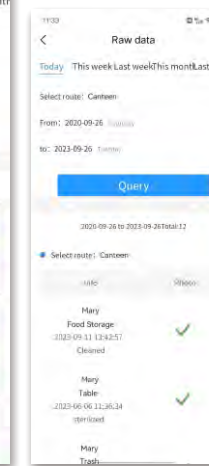

Setting　　　Add checkpoint　　　Scanning　　　Exception recording　　　Alert report　　　Raw data

Cloud patrol app (for Z-9000)
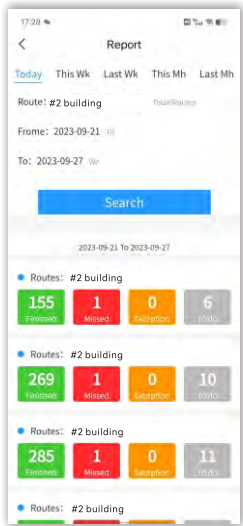

■ Based on android, regular updates, free of charge.

■ Support barcode, QR code, rfid, nfc patrol.

■ Comprehensive recording (audio, video)

■ Real-time input for unexpected incidents

■ Hazard ledger for standardized review and processing, with traceable data.

■ Effortless personnel and equipment scheduling with multiple routes
