Technical Parameters

Reading Method	Auto-induction, free from pressing any button
Camera	2.0 Mega pixel high identification camera
Display	TFT 2.4 ' High-definition color display
Image storage	8G IT card
Event	500 Pieces
Lighting	LED Lighting, can be used as a torch at night
Storage capacity	80,000pcs
Working temperature	40°C to 70°C
Impact record capacity	32,000pcs
Working humidity	0 to 95%
Communication	USB pogo pin contacts
IP rating	IP 67
Direction	LED+Vibration+LCD
Battery	900mAh built-in rechargeable li-ion battery
Baud rate	115200Bps
Battery level	5 levels display
Dimension	131mm x 55mm x 20mm
Net weight	130g
